**Sample Contract:** Contact Program      **Benefit Package:** Contact Program      **Curriculum:** Contact Program

**PROGRAM OVERVIEW**

Lakewood Regional Medical Center's residency program was founded in 1981. The program has enjoyed considerable stability and prosperity for over three decades. Dr. Lawrence Hodor has been the program director since 1986. The facility is a state of the art 161 bed acute care facility located in Lakewood, CA (near Long Beach).

Surgical numbers are impressive and far exceed what is required in all categories. Residents have their own office with a computer and internet access.

The resident doctor is treated with respect and dignity by the hospital and physician staff. The atmosphere is conducive to learning with a friendly, constructive, podiatric staff. The program provides excellent practice management opportunities in the private offices of many different physicians.

Residents gain significant experience in managing diabetic foot infections, wound care, amputations, hospital consultations and working in a "team approach" to inpatient management. We have an excellent relationship with the orthopedists and our residents are sought after to assist in their cases.
