**PROGRAM OVERVIEW**

We are a comprehensive three year program (PM&S-36) providing a well rounded educational experience. We accept candidates who have completed a previous residency program but they must enter the program as a PGY1. Our residents complete the program with well balanced surgical, medical, and practice management skills that helps to serve as a basis for a successful transition into group or private practice. Our residents have the added advantage of scrubbing all orthopedic and podiatric foot and ankle cases creating an unique perspective. The resident also has an opportunity to serve a medical mission to an underserved area of the world for one week if they so desire.
