PROGRAM OVERVIEW

High-paced program dealing with a full variety of medical and surgical pathologies. Busy daily clinic from which residents develop superior clinical skills and their surgical cases. All residents far exceed surgical requirements. One sixth of time is spent on external podiatric surgical rotations in the Phoenix valley. Graduates have a broad experience caring for complex medical patients in both the inpatient as well as outpatient settings. Furthermore, they have significant experience with a wide variety of podiatric pathologies, wound care, podiatric surgery, and the podiatric/medical training necessary to manage any patient (or complication) encountered in podiatric practice.
