- **Deadline:** 11/7/2018

**Other Applicant Requirements:** Must be U.S. Citizen

**Available Resources**

- **Sample Contract:** Contact Program
- **Benefit Package:** Contact Program
- **Curriculum:** Contact Program

**Program Overview**

Mt. Sinai Hospital is an inner-city level one trauma center. The residents will see foot & ankle trauma rarely seen in the literature. Will see severe diabetic foot infections with all levels of amputation. Abundant elective forefoot and rearfoot surgery. Encourage candidates from all schools to apply. The director's goal is 'c' cases from day one; you don't learn surgery holding retractors. This program is not intended for the student who wants a "country-club" residency. However, upon completion of this program, you will be well-versed in all phases of podiatry, and nothing will surprise you in private practice.
