PROGRAM OVERVIEW

This is a PMSR with Rearfoot/Ankle Reconstruction approved by CPME. A vast array of clinical exposures is made available to the residents of the program to assure both diversity and volume of both medical and surgical experiences! Our affiliation with the University of Louisville, a level 1 Trauma Center and teaching hospital, assures our resident have an abundance of opportunities in traumatology with an emphasis on lower extremity foot and ankle trauma. Wound care opportunities are made available at each of our institutions working closely with diabetic and traumatic wounds as part of the wound care team. Our faculty includes 18 Podiatric and over 20 allopathic physicians in multiple specialties. This provides a very favorable learning environment for our residents. Externship is mandated to be considered for a residency position at our Program. Further information can be found on our residency Web site (www.jhsmh.org/podiatry)
