Benefit Package: Contact Program
Curriculum: Contact Program

**PROGRAM OVERVIEW**

Our program boasts a large diverse surgical volume and an extensive academic curriculum. In past years, residents graduated with two and half times the minimal requirements set by the CPME. Our program has a very diverse case load. Residents can expect close to three times the minimum requirements in RRA procedures. Our academic curriculum includes weekly lectures, monthly journal club, Mann review, monthly research forum, and live case presentations. Our residents are treated like traditional Osteopathic residents during the medical and surgical rotations. Our program provides an extensive amount of clinical exposure. Residents spend one day a week at the hospital-based wound care center.
