We are a comprehensive three year program (PMS/RRA) providing a well rounded educational experience. Our residents complete the program with well balanced surgical, medical, and practice management skills that helps to serve as a basis for a successful transition into group or private practice. Our residents have the added advantage of scrubbing all orthopedic and podiatric foot and ankle cases creating a unique perspective. The resident also has an opportunity to serve a medical mission to an underserved area of the world for one week if they so desire. Residents staff several resident run clinics to gain valuable experience in evaluating, treating and following patients on their own with supervision from attending podiatrists as needed.
