**Other Applicant Requirements:** Clerkship and/or visitation strongly recommended in order for an applicant to fully appreciate the full scope of training available and to interact with residents and attendings

**AVAILABLE RESOURCES**

**Sample Contract:** Contact Program **Benefit Package:** Internet Site

**Curriculum:** Internet Site

**PROGRAM OVERVIEW**

Inova Fairfax Hospital, an 833-bed teaching facility, houses Northern Virginia's only Level 1 trauma center and the clinical campus for VCU med students. The podiatry residency program is fully integrated within the GME community with podiatry residents functioning as equals to allopathic residents. Strengths of the program include extensive training in reconstructive rearfoot and ankle surgery, a strong didactic program, intensive hands-on medical rotations, a large podiatric and medical teaching service, a large in-patient podiatric service, a formalized trauma rotation in conjunction with the orthopedic trauma team and a recently added orthopedic oncology rotation. At Georgetown U Medical Center, residents function as Chief Resident at the Limb Salvage Center under the auspices of a world-renowned plastic surgeon and do a structured research rotation. Extensive hands-on clinical training is available at the Kaiser Permanente foot clinics. Opportunity is available for all expense paid medical missionary work overseas for extensive training in reconstructive limb salvage surgery.
