PROGRAM OVERVIEW

The strongest feature of our program is the hands-on approach that is introduced from the first day of arrival.  This residency is an integral part of a teaching hospital affiliated with the Warren Alpert Medical School at Brown University.  All rotations are geared to teaching through that hands-on approach.  The podiatric clinical experience is invaluable with outpatient office rotations.  Here you learn to work up a spectrum of pathologies and follow patients throughout their entire treatment course.  In addition, they offer a real look into everyday podiatric practice.  The surgical exposure is also done through a hands-on approach from day one.  The surgical cases FAR exceed all requirements in each of the surgical categories.  If you are a hard-working and self-motivated individual who comes prepared every day, you will excel here.  Although the work is substantial, we also expect you to have fun and enjoy the experience.
