PROGRAM OVERVIEW

This program has been a strong program since 1989 and has transitioned to 36 months. We are currently approved for the RRA credential. There will be one entry-level position available for the Match. The residents have a large urban university hospital at their disposal for well-planned non-podiatric rotations. Elective options available for second and third years and exceptional salary and benefits. Our graduating residents are well prepared to start their own practice and most feel inclined to do so. All are successful practitioners to date.
