PROGRAM OVERVIEW

Our residency places a large emphasis on academics. Weekly journal clubs, online lectures, guest lectures, cadaver workshops, case presentation and grand rounds comprise our didactic schedule. Our residents attend outside podiatric lectures and participate in programs offered by the New York College of Podiatric Medicine. By the completion of the third year, each resident is expected to have completed a poster presentation and paper of publishable quality. Having a large podiatric attending staff provides residents with a multitude of surgical cases and procedures. In addition, the podiatry service has an excellent working relationship with the Department of Orthopaedics affording our residents the opportunity to scrub in on a great majority of surgical cases including all foot and ankle trauma.
