PROGRAM OVERVIEW

Montefiore Mt Vernon is a community-based teaching hospital that functions as a family and values interdisciplinary teamwork. Our PMSR/RRA program offers a comprehensive, well-rounded surgical and clinical education through an academic and positive learning environment. Our residents have a positive relationship with orthopedics and benefit from training with them to learn elective surgery, reconstructive surgery, and limb salvage. Our program exposes residents to a high volume of outpatients and the pre & post-op challenges of podiatric surgery. Our residents are exposed to practice management and billing & coding to prepare them for their careers. We also work closely with wound care specialists who utilize evidence-based therapies at our HBO wound care center. Didactics are highly emphasized at our program: journal club, resident/student presentations, morbidity & mortality discussions, and multiple workshops/labs. Externship and/or student visitation is highly recommended.
