Associate Director

Research Associate Position Leading to Entry Level PMSR Position

We currently have a funded position for a Research Associate who will be dedicated exclusively to performing research within our Podiatry Service directly under the supervision of Robert Frykberg, DPM, MPH. This one year position, upon successful completion of requirements, will lead to an entry level PGY-1 position in our PMSR program. Our research focuses on diabetic foot disorders, lower limb disorders, and wound trials. The successful candidate will be required to assist with several research products, write and submit 4 papers for publication, and submit 3 posters to national meetings for presentation.

Suitable applicants will have a DPM degree, have passed part II National Boards, and must be motivated to work independently to accomplish the goals of our research program. Application to CASPR during the present cycle will also be required since the candidate must also formally submit an application for our residency program. Position is open immediately- salary and benefits on request. Inquiries should be made by email to Dr Robert Frykberg: robert.frykberg@va.gov
